**Subject:** A million thank yous

Dr. Spicer,

I just want to take time to thank you for being an amazing educator. Asynchronous education has been an interesting change for me and I often felt disconnected from my instructors, except you. From the very first course with you, I felt seen, heard, and respected in a way that is unique for my graduate experiences (not just at St. Francis). Your feedback is so personal and thorough that it inspires me to keep pushing through difficult weeks and readings. [REDACTED] I am forever grateful for your approach to education, and aspire to be an educator like you. I wish your family health and happiness.

Best Wishes,

Jamea Harper
